Subject: Royal Purple - Biomax Hydraulic Oil 46

After analysis of the results of several compatibility test performed according to our specification, we are glad to confirm that the Royal Purple - Biomax Hydraulic Oil 46 has been added to the HS.Marine's List of Approved EALs.

As you know, since HS.Marine is not able to ensure the compatibility, the efficiency and the performance of the crane with EAL oils not included in this list, the use of other EAL oils invalidates the crane warranties.

Best regards
Ing. Giovanni PATINI
Project Leader
